

Alegeti modalitatea corecta de a apela metoda executeThis:

```
class Question
{
    public void executeThis(int p, double k)
    {
        Console.WriteLine("k : csharp!");
    }
}
```

a)

```
delegate void del(int i);
Question s = new Question();
del d = new del(ref s.executeThis);
d(8, 2.2f);
```

b)

```
delegate void del(int p, double k)
Question s = new Question();
d = new del(ref s.executeThis);
d(8, 2.2f);
```

c)

```
Question s = new Question();
delegate void d = new del(ref s.executeThis);
d(8, 2.2f);
```

d) Toate cele de mai sus

Justificare raspuns:

“Delegate” este un contract care poate referi la o anumita metoda ce are aceeasi signatura si returneaza acelasi tip cu delegate-ul.
